Sample label. Please see package insert for complete prescribing information.

NDC 63323-651-89

Adenosine
Injection, USP

6 mg per 2 mL
(3 mg per mL)

Syringes may require needle or blunt.

Each mL contains: Adenosine 3 mg and sodium chloride 9 mg in water for injection.

Usual dosage: See package insert.

STORE AT: 20° to **25°**C (**68°** to **77°**F) [see USP Controlled Room Temperature].

DO NOT REFRIGERATE as crystallization may occur. If crystallization has occurred, dissolve crystals by warming to room temperature. The solution must be clear at the time of use.

Discard unused portion.

The container closure is not made with natural rubber latex.
